State Representative Bryan Adams commends United States Armed Forces and recognizes May 2014, as Military Appreciation Month

BATON ROUGE - State Representative Bryan Adams, (R-Gretna), has filed House Concurrent Resolution 93 which commends the United States Armed Forces and recognizes May 2014, as Military Appreciation Month. The resolution, which has passed both the House and Senate, will be read on the House floor during Wednesday's Regular Session meeting when Representative Adams will honor special guests.

Adams said, "It is not enough to speak of the bravery of the members of our Nation's armed forces, but it is also necessary for us to recognize and honor our military publicly. We appreciate the hard work our troops and veterans have continued to demonstrate to protect us as citizens of the United States, and for that we recognize May as the official Military Appreciation Month."

The Louisiana House of Representatives will convene Wednesday, April 30, at 2:00 pm.
