**Subject:** Eliminating of District 81 and combining with New Orleans district?

I would officially like to express my opinion about the elimination of district 81 and I do not agree with this in anyway or form. I would like to continue to be represented by a district that is wholly in Jefferson Parish. I would not like to be combined with a New Orleans district either. It is ridiculous to think that a meeting was held in a New Orleans venue to discuss such an issue. Of course there were no Jefferson parish residents attending to express their discontent.

I can tell you though there are many Jefferson residents that are not in agreement with such redistricting.

Regards,  
Mark Francis
